**Cohen's Lottery and Exchange-Office.****Hoc signo Fortuna.**

BALTIMORE—THURSDAY, MAY 11, 1826.

**An Even Number again!**

The drawing of the Grand State Lottery of Maryland, No. 6, took place yesterday afternoon, agreeably to announcement. The official list will be found on the opposite page. The capital prize of 25,000 dollars came out to 37,320, (*an Even Number*)—the 10,000 dollars came out to No. 37,712—and the 5000's to Nos. 29,505 and 30,439. We have not time to detail any particulars relative to whom or where the capitals fell—we must defer it till our next, not wishing to detain our publication, knowing the anxiety of all our distant friends to learn the result of their investments by the earliest mail—We will merely mention that, as usual at COHEN's OFFICE, the CASH for the whole of the Prizes (both large and small) is waiting the call of the fortunate adventurers, and as the principal part of them reside out of the city, we shall be pleased to hear from them either in person or by letter, as early as may suit their convenience.

**New Scheme. Odd & Even System**

The popularity of the Odd and Even System of Lottery, continues increasing and unrivalled—The Commissioners of the GRAND STATE LOTTERY of MARYLAND have again adopted this superior mode of drawing, for the new scheme (No. 7) which appears on the 4th page of this day's Register. The universal approbation of this system of lottery, arises from the very small risk, there being not one Blank to a Prize; and the CERTAINTY of obtaining at least One Prize, by the purchase of two tickets or two shares, and may draw three!

THE DRAWING will take place in the city of BALTIMORE, on Wednesday, the 12th of JULY, and will be entirely completed IN ONE DAY under the superintendence of the Commissioner appointed by the Governor and Council.

The Scheme is exceedingly brilliant. The Capital Prize of THIRTY THOUSAND DOLLARS will be a splendid independence.

*Whole Tickets, \$5 00 | Quarters, . . . \$1 25

ORDERS from any part of the United States, either by mail (post paid) or private conveyance, enclosing the cash or prize tickets in any of the lotteries, will meet the same prompt and punctual attention as if on personal application. *Address to*

**J. I. COHEN, JR. & BROTHERS, Baltimore.**

*Notice to Postmasters and Agents. TICKETS in the new scheme of the Grand State Lottery, being at Five Dollars, enables us to allow the same liberal commission as in the last lottery. Orders as heretofore will meet our accustomed prompt attention. Be particular in directing to*

**J. I. COHEN, JR. & BROTHERS,**  
*Baltimore.*

**Certificates of Tickets & Shares.**

The superior advantages of the *Odd and Even System* of drawing, is additionally increased by the accommodation it affords to adventurers who may not wish to advance the whole amount of cost of tickets, but only to pay the difference between that sum and what the tickets *must necessarily draw*. We are now preparing Certificates for that purpose, and will be ready next week, when we shall publish a schedule showing the rates. *Adventurers can be supplied in that way with any number of tickets from two, upwards, and the odd and even system is the only one under which they can be so prepared.*

**Congress of the United States**

A very interesting report accompanied by several documents, and introductory to a series of bills, was made on the 4th inst. in the Senate by Mr. BENTON, from a committee appointed to inquire into the expediency of reducing the patronage of the Executive Government of the United States. The subject and the report together were deemed of sufficient importance by the Senate to order six thousand extra copies of the report and documents to be printed. The report and the bills will, of course, be published in the newspapers as soon as they can: Meanwhile, the nature of the report may be understood, in part, at least, from the following general statement of the objects of the several bills:

One of these bills proposes to provide, that, from and after the 1st day of Dec. next, the number of papers selected to publish the laws of the United States and public advertisements, shall not be less than three in each State, and may be equal to half the representation of each State, in Congress; in each Territory, one; and, in the District of Columbia, three; the selection to be made by the Senators and Representatives from each State, and the Delegates from the Territories; the papers in the District of Columbia to be selected by the Secretary of State, he giving the preference to those papers having the greatest number of actual subscribers.

Another of the bills provides for securing in office faithful collectors and disbursers of the revenue, and to displace defaulters, by requiring the President to lay before Congress, once in every four years, commencing with the first week in January next, a statement of the accounts of all the officers under the authority of the Executive Government, who hold offices charged with the collection or disbursement of public moneys, who shall have failed to account for such moneys before the 30th of September preceding; their offices to be vacated, from the period of such information being communicated to Congress. It also provides, that, upon the nomination of officers to fill the vacancies occasioned by removals, the President shall state the reasons for such removals, and it repeals the acts of May 15, 1820, limiting the term of office of certain officers.

A third of the bills provides, that no person shall receive the appointment of Postmaster, where the emoluments exceeds a certain amount per annum, except upon a nomination of the President, by and with the advice and consent of the Senate.

A fourth of the bills provides, that the appointment of Cadets to the Military Academy, shall be apportioned among the several States according to the whole number of Senators and Representatives in Congress from each State: the appointments to be so made that one cadet shall be taken from each electoral district, or, from each Congressional district, and two from the State at large, if not divided into electoral districts; that one shall be appointed from each Territory, and — from the District of Columbia.

A fifth provides for the appointment of Midshipmen in the Navy, in a manner similar to the appointment of Cadets, as specified above; and directs that no person shall receive the appointment of Midshipman, unless he be over fourteen, and under twenty-one years of age.

The sixth and last bill provides, that the commissions of the officers of the Army and Navy shall no longer be made out "to continue in force during the pleasure of the President," but "to continue in force during good behaviour;" and that no officer shall hereafter be dismissed the service, but

by sentence of a Court Martial, or upon an address to the President, by both Houses of Congress.

*Nat. Int.*

*Fire at Vera Cruz.*—Accounts received in this city and in Philadelphia, from the Havana, represent that the Custom-house stores at Vera Cruz, had been destroyed by fire, together with property to the amount of two millions of dollars—This information was conveyed to Havana by a French brig from Vera Cruz. From a description of the buildings, which is given by the editor of the Philadelphia Gazette, we are in hopes that the statement of the amount of property injured is considerably magnified. The stores are described as being built of massive masonry—the walls four feet thick,—the roof of tiles—the floor of brick. That the *stores* should be burned down, is pronounced impossible; but that the goods deposited therein should have caught fire, is thought not improbable; for the superintendents, at stated periods, kindle fires "to smoke out bats and other animals which take refuge within the walls." From the number of doors, however, and from the situation of the building, it is believed that if a fire were to break out in one quarter, there would be little difficulty in removing the goods stored in the other departments.

**Foreign and Domestic Gleanings.**

*Trade of the Susquehanna.*—The Marietta Pioneer states, that more than three weeks since, 566 arks, and 537 rafts had descended the Susquehanna. The number must have greatly increased since. Indeed, it is thought that property to the value of more than a million dollars, must have floated down the river during the spring.

The King of France has ordered a silver Statue of the Virgin, large as life, to be made and presented to the Metropolitan Church of Paris. To be paid for from his private funds.

*A good one.*—An eastern editor declared that ladies always pulled off the left stocking last. This declaration offended some of them, and they pronounced the busying, prying editor to be no gentleman, and, moreover, asserting what is not true. The editor nothing daunted, defends himself thus:—"When one stocking is pulled off first, there is another left on, and pulling off this is taking the left stocking off last."

The York (British) Gazette reports that a lady just recovered from an illness of a few weeks, has presented her physician with a check on her banker for 5000L.

There are in the city of Paris, only, 520 watchmakers, who employ 2055 workmen, and produce annually 80,000 gold watches, 40,000 silver watches, and 15,000 clocks, the whole worth about 19,765,000 francs.

Counterfeit 25 cent pieces, and "five penny bits," are in circulation in Philadelphia.

*Launch.*—On Wednesday, between 12 and 1 the elegant new steamboat Newcastle was launched, in handsomest style, from the shipyard in Kensington, where she was built. A very pleasant repast was provided for the occasion. The Newcastle belongs to the Baltimore Union Line, and is intended for the morning line between Philadelphia and Newcastle.

Messrs. Carey & Lea, of Philadelphia, have in the press the new Waverly Novel entitled *Woodstock*.

Three hundred thousand herrings were caught by a single haul of the seine, at Young's Landing, on the Potowmac, on the 19th ult.

No. 114, Market-st.

And in calling, sending or directing, they will be particular in noticing the same.

## ODD AND EVEN SYSTEM,

By which the holder of two Tickets is certain of obtaining at least ONE PRIZE, and may draw THREE!—This mode of drawing is secured by Letters Patent under the Seal of the United States.

# Grand State Lottery

OF MARYLAND, No. 7.—Under the superintendance of the Commissioners appointed by the Governor and Council.—The whole TO BE DRAWN IN ONE DAY, and will take place in the City of BALTIMORE on the

12th DAY OF JULY NEXT.

HIGHEST PRIZE,

# 30,000 DOLLARS!

### BRILLIANT SCHEME:

500 6	3,000
20,000 4	80,000

40,000 Tickets. . . . . \$160,000

### NOT ONE BLANK TO A PRIZE!

Prizes payable in CASH, which can be had, as usual at Cohen's Office, the moment they are Drawn.

MODE OF DRAWING.—The numbers will be put into one wheel as usual—and in the other wheel will be put, the prizes above the denomination of Four Dollars, and the drawing to progress in the usual manner. The 20,000 prizes of \$4 will be awarded to the odd or even numbers of the Lottery, (as the case may be,) dependent on the drawing of the Capital Prize of Thirty Thousand Dollars—that is to say, if the 30,000 dollar prize should come out to an Odd Number, then every Odd Number in the Scheme will be entitled to a \$4 prize. If the 30,000 prize should come out to an Even Number, then all the Even Numbers in the Scheme will be each entitled to a prize of \$4.

**Odd Numbers are those ending with 1, 3, 5, 7 or 9.**

**Even Numbers are those ending with 2, 4, 6, 8 or 0.**

This mode of drawing not only enables the Commissioners to complete the whole Lottery in ONE DRAWING, but has the great advantage of distributing the small prizes regularly to every alternate Number in the Scheme, so that the holder of two Tickets or two Shares of Tickets, (one Odd and one Even Number,) will be certain of obtaining at least one prize, and in the same ratio for any greater quantity. A Ticket drawing a superior prize in this Scheme is not restricted from drawing an inferior one also; many tickets, therefore, will necessarily obtain TWO PRIZES EACH!
